

# 2016 CC

Unforgettable elegance.

We set out on a mission to master the art of refinement, and the results exceeded expectations. Introducing the 2016 CC, a car that not only raises the standards in engineering, but also in design, with every detail carefully crafted to exude sophistication and distinctive character. It comes equipped with a turbocharged 2.0 TSI<sup>®</sup> engine, for pure power and performance. In other words, the CC won't just transport you; it'll transform your driving experience to one of pure elegance.

## Key Features

### App-Connect<sup>†</sup>

Think smart, with App-Connect, using either Android Auto<sup>™</sup> from Google<sup>®</sup>, CarPlay<sup>™</sup> from Apple<sup>®</sup>, or MirrorLink<sup>™</sup>. Its intuitive interface and powerful voice command actions let you easily search online for songs, directions or even your favourite restaurant, so you'll keep your eyes on the road, and not on your screen.

### Available active front ventilated seats with driver's side seat massage\*

Heat up or cool down with ventilated seats that provide integrated air conditioning and heating; not to mention an incredible massage function that will keep you feeling relaxed at the wheel. You may never want to leave the comfort of your Volkswagen again.

### Discover Media infotainment system<sup>†</sup>

The new Discover Media infotainment system combines next-generation navigation features with in-car media entertainment and App-Connect functionality, all controlled from an easy-to-use 6.33" touchscreen colour display.

### KESSEY – keyless access with push-start button

It's easy to lose your keys at the bottom of your purse, or not have a hand free to reach the keys in your pocket. But with KESSEY keyless access, you can lock or unlock your doors and start your Volkswagen without having to search for your keys. You don't even have to know what pocket they're in.

### Bi-Xenon headlights with Adaptive Front-light System (AFS)

In every way, our lights go further. When night falls, Bi-Xenon lights shine brighter than halogen or regular filament bulbs, and, with AFS, can turn up to 13 degrees around corners.

### Available Side Assist\*\*††

The 2016 CC covers all angles. An available Side Assist monitoring system warns the driver of a potentially hazardous situation to the left and right of the vehicle and up to 50 m behind it. We've got your back. And your side.

\*Feature is available on higher trims only and/or as an option. See the Features page for details. †Do not drive distracted. ††Driver assistance feature. Drivers must continue to perform manual checks.
