

Eos

2012

Das Auto.

Topless chic.

Meet the 2012 Eos: the only hardtop convertible in its category with a sunroof. Constructed with German ingenuity and designed for the open road, the 2012 Eos is the perfect combination of power and sophistication. With beautifully structured contours and available innovative features like KESSY keyless access with start/stop button, you've got a car that really makes a statement.

Droptop gorgeous.

The award-winning convertible just got a makeover. After all, the view shouldn't be the only beautiful thing about a cabriolet. From the leather-wrapped steering wheel, wind-blocking system and 200-horsepower engine, the Eos is as breathtaking to look at as it is to drive. In fact, it might be tough to tell if it's the wind making your hair stand on end, or the car.

Key Features

Features

6-speed Automatic DSG with Tiptronic®

DSG – A definite shift for the better. DSG stands for Direct Shift Gearbox. In essence, it gives you the convenience of an automatic with the performance and efficiency of a manual. Here's how it works. DSG is managed by dual electronically controlled clutches, so not only do you shift faster, you also get enhanced acceleration and reduced fuel consumption. In fact, thanks to DSG, each shift takes less than 4/100ths of a second. And if you're the manual type, a quick flip of the Tiptronic® function lets you shift into something a little sportier.

Think Blue. Comfort high, fuel consumption low. Air conditioning and other auxiliaries add comfort, but rapidly consume fuel. So when the weather is nice, open your windows for some fresh air and let the heat escape. In winter, turn off your seat heaters once warm and your defrosters once clear. Think Blue.
